Eric Fischer, Production Adjustment  
Ken Schapman, Price Support  
Dale Allen, Conservation

*Please contact your local FSA Office for questions specific to your operation or county.*

### Enrollment for 2016 Dairy MPP Began July 1

FSA announced that starting July 1, 2015, dairy farmers can enroll in [Margin Protection Program](#) for coverage in 2016. The voluntary program, established by the 2014 Farm Bill, provides financial assistance to participating dairy operations when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

The Margin Protection Program gives participating dairy producers the flexibility to select coverage levels best suited for their operation. Enrollment begins July 1 and ends on **Sept. 30, 2015**, for coverage in 2016. Participating farmers will remain in the program through 2018 and pay a \$100 administrative fee each year. Producers also have the option of selecting a different coverage level during open enrollment each year. Margin Protection Program payments are based on an operation's historical production. An operation's historical production will increase by 2.61 percent in 2016 if the operation participated in 2015, providing a stronger safety net.

USDA also has an online resource available to help dairy producers decide which level of coverage will provide them with the strongest safety net under a variety of conditions. The enhanced Web tool, available at [www.fsa.usda.gov/mpptool](http://www.fsa.usda.gov/mpptool), allows dairy farmers to quickly and easily combine their unique operation data and other key variables to calculate their coverage needs based on price projections. Producers can also review historical data or estimate future coverage based on data projections. The secure site can be accessed via computer, mobile phone, or tablet, 24 hours a day, seven days a week.

Dairy operations enrolling in the program must meet conservation compliance provisions. Producers participating in the Livestock Gross Margin insurance program may register for the Margin Protection Program, but this new margin program will only begin once their livestock dairy insurance coverage has ended. Producers must also submit form CCC-782 for 2016, confirming their Margin Protection Program coverage level selection, to the local Farm Service Agency (FSA) office. If electing higher coverage for 2016, dairy producers can either pay the premium in full at the time of enrollment or pay a minimum of 25 percent of the premium by Feb. 1, 2016.

For more information, visit FSA online at [www.fsa.usda.gov/dairy](http://www.fsa.usda.gov/dairy) for more information, or stop by a local FSA office to learn more about the Margin Protection Program. To find a local FSA office in your area, visit <http://offices.usda.gov>.

---

## NAP Deadline Approaching

Producers are reminded to apply for 2016 Noninsured Crop Disaster Assistance Program (NAP) benefits as soon as possible. The **September 1, 2015** deadline includes value loss crops (Aquaculture, Christmas Trees, Ginseng, Turfgrass Sod, Nursery, Mushrooms, and Floriculture). The **September 30, 2015** deadline applies to small grains and perennial forage. The deadline for crops planted in the spring is March 15.

Eligible producers can apply for 2016 NAP coverage at their local FSA Office using form CCC-471, Application for Coverage. The service fee for basic NAP coverage is the lesser of \$250 per crop or \$750 per producer per administrative county, not to exceed a total of \$1,875 for a producer with farming interest in multiple counties. Producers interested in buy-up coverage must pay a premium, in addition to the service fee. The maximum premium will be \$6,563.

Producer meeting the definition of a socially disadvantaged farmer or rancher, beginning farmer or rancher or limited resource farmer or rancher will have service fees waived. Producers meeting this definition that choose to purchase buy-up coverage will also have service fees waived and the premium will be capped at \$3,282.

The application and service fee must be filed by September 1, 2015 for value loss crops, and by September 30, 2015 for small grains and perennial forage.

---

## Filing a Notice of Loss

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, Notice of Loss, within the required 15 calendar days.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

---

## MAL and LDP Policy Changes for Crop Years 2015-2018

The Agricultural Act of 2014 authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs), with a few minor policy changes.

Among the changes, farm-stored MAL collateral transferred to warehouse storage will retain the original loan rate, be allowed to transfer only the outstanding farm-stored quantity with no additional quantity allowed and will no longer require producers to have a paid for measurement service when moving or commingling loan collateral.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2015 MALs and LDPs for wool as well as LDPs for unshorn pelts. MAL and LDP requests for all other eligible commodities will be accepted after harvest. FSA continues to accept MAL and LDP requests for 2014 crops with upcoming deadlines.

Before MAL repayments and LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Additionally, form CCC-902 and CCC-901 must be submitted for the 2014 crop year, if applicable, with a county committee determination and updated subsidiary files.

To be considered eligible for an LDP, producers must have form [CCC-633EZ](#), Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website [www.fsa.usda.gov](http://www.fsa.usda.gov).

---

## Beginning Farmer Loans

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit [www.fsa.usda.gov](http://www.fsa.usda.gov).

## USDA Announces Conservation Incentives for Working Grass, Range and Pasture Lands

Beginning Sept. 1, farmers and ranchers can apply for financial assistance to help conserve working grasslands, rangeland and pastureland while maintaining the areas as livestock grazing lands.

The initiative is part of the voluntary Conservation Reserve Program (CRP), a federally funded program that for 30 years has assisted agricultural producers with the cost of restoring, enhancing and protecting certain grasses, shrubs and trees to improve water quality, prevent soil erosion and reduce loss of wildlife habitat. In return, the U.S. Department of Agriculture (USDA) provides participants with rental payments and cost-share assistance. CRP has helped farmers and ranchers prevent more than 8 billion tons of soil from eroding, reduce nitrogen and phosphorous runoff relative to cropland by 95 and 85 percent respectively, and even sequester 43 million tons of greenhouse gases annually, equal to taking 8 million cars off the road.

The CRP-Grasslands initiative will provide participants who establish long-term, resource-conserving covers with annual rental payments up to 75 percent of the grazing value of the land. Cost-share assistance also is available for up to 50 percent of the covers and other practices, such as cross fencing to support rotational grazing or improving pasture cover to benefit pollinators or other wildlife. Participants may still conduct common grazing practices, produce hay, mow, or harvest for seed production, conduct fire rehabilitation, and construct firebreaks and fences.

With the publication of the CRP regulation, the Farm Service Agency will accept applications on an ongoing basis beginning Sept. 1, 2015, with those applications scored against published ranking criteria, and approved based on the competitiveness of the offer. The ranking period will occur at least once per year and be announced at least 30 days prior to its start. The end of the first ranking period will be Nov. 20, 2015.

To learn more about participating in CRP-Grasslands or SAFE, visit [www.fsa.usda.gov/crp](http://www.fsa.usda.gov/crp) or consult with the local Farm Service Agency county office. To locate a nearby Farm Service Agency office, visit <http://offices.usda.gov>. To learn more about the 30th anniversary of CRP, visit [www.fsa.usda.gov/CRPis30](http://www.fsa.usda.gov/CRPis30) or follow on Twitter using #CRPis30.

## Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for members of targeted underserved applicants.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

## USDA Energy Biomass Retrieval Incentives Began June 30

*Owners of Forestry and Farm Residues Can Apply for Biomass Crop Assistance Program*

The USDA Farm Service Agency (FSA) began accepting applications on June 30, 2015, from foresters and farmers seeking financial assistance to harvest and deliver biomass to generate clean energy. The support comes through the Biomass Crop Assistance Program (BCAP), which was re-authorized by the 2014 Farm Bill.

For 2015, USDA has reserved up to \$11.5 million to assist with the cost of removing woody or herbaceous residues from farm fields or national forests and woodlands for delivery to energy generation facilities. A majority of the funds are expected to support the removal of dead or diseased trees from National Forest and Bureau of Land Management public lands. Orchard wastes, and agriculture residues such as corn cobs and stalks, also qualify as energy-producing feedstock.

To be eligible for the retrieval incentives, the biomass must be delivered to FSA-approved biomass conversion facilities. For a list of approved facilities, visit [www.fsa.usda.gov/bcap](http://www.fsa.usda.gov/bcap).

The Biomass Crop Assistance Program also provides financial assistance to farmers and ranchers who produce new sources of energy biomass by growing eligible crops on contract acres within approved BCAP project areas. Funding for this portion of the program, known as BCAP Project Areas will be announced later this summer.

For more details on the environmental review, proposed changes to BCAP, visit [www.bcappeis.com](http://www.bcappeis.com), [www.fsa.usda.gov/bcap](http://www.fsa.usda.gov/bcap) or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

## Important Dates to Remember

- **September 1, 2015:** NAP deadline for Value Loss Crops (Aquaculture, Christmas Trees, Ginseng, Turfgrass Sod, Nursery, Mushrooms, and Floriculture)
- **September 30, 2015:** Final date to register or make 2016 MPP election.
- **September 30, 2015:** NAP sales closing date for Fall Seeded Small Grains, Forage and Grazing Crops
- **December 1, 2015 - February 26, 2016:** Next General CRP Sign-Up Period
- **Continuous:** Farm Loan applications may be accepted at any time.
- **Continuous:** Continuous Conservation Reserve Program offers may be made at any time (includes CREP and SAFE).

Note:

- August FSFL Interest Rates: 7 year - **2.125%**, 10 year - **2.375%**, 12 year - **2.500%**
- 2015 Commodity Loans: **1.250%**
