FSAfarm+, FSA's Customer Self-Service Portal

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) has launched a new tool to provide farmers and ranchers with remote access to their personal farm information using their home computers. Farmers and ranchers can now view, print or export their personal farm data all without visiting an FSA county office.

The program, known as FSAfarm+, provides you with secure access to view your personal FSA data, such as base and yields, Conservation Reserve Program data, other conservation program acreage, Highly Erodible Land Conservation and Wetland Conservation status information, field boundaries, farm imagery, name and address details, contact information and membership interest and shares in the operation. This data will be available in real time, at no cost to the producer and allow operators and owners to export and print farm records, including maps. Producers also can electronically share their data with a crop insurance agent from their own personal computer.

Chief Farm Programs:
Rob Satterfield

Chief Operations and Programs:
Ralph Price

Chief Farm Loan Programs:
Mike Huskey

Public Affairs & Outreach Specialist:
Nimasheena Burns

State Committee Meeting:
Monthly First Tuesday

Please contact your [local FSA Office](#) for questions specific to your operation.

Farm operators and owners first will need “Level 2 eAuthentication” to access the webportal. This level of security ensures that personal information is protected for each user. Level 2 access can be obtained by going to www.eauth.usda.gov, completing the required information and then visiting your local FSA office to finalize access.

For more information on FSAfarm+, the customer self-service portal, contact your local FSA office. To find your local FSA county office, click <http://offices.usda.gov>.

Guaranteed Loan Program

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

Emergency Conservation Program Assistance Available in North Carolina Counties

The Emergency Conservation Program (ECP) provides emergency funding and technical assistance to farmers and ranchers to rehabilitate farmland damaged by natural disasters and to implement emergency water conservation measures in periods of severe drought.

The following counties are eligible for ECP assistance: Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Edgecombe, Greene, Hoke, Hyde, Johnston, Lenoir, Nash, New Hanover, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Robeson, Tyrrell, Washington, and Wayne. Counties contiguous to the

declared counties are also eligible for ECP.

For land to be eligible, the natural disaster must create new conservation problems that, if untreated, would:

- be so costly to rehabilitate that Federal assistance is or will be needed to return the land to productive agricultural use
- is unusual and is not the type that would recur frequently in the same area
- affect the productive capacity of the farmland
- impair or endanger the land

A producer qualifying for ECP assistance may receive cost-share levels not to exceed 75 percent of the eligible cost of restoration measures. No producer is eligible for more than \$200,000 cost sharing per natural disaster occurrence. The following types of measures may be eligible:

- removing debris from farmland
- grading, shaping, or releveling severely damaged farmland
- restoring permanent fences
- restoring conservation structures and other similar installations

Producers who suffered a loss from a natural disaster should contact their local FSA Office for ECP deadlines.

To be eligible for assistance, practices must not be started until all of the following are met:

- an application for cost-share assistance has been filed
- the local FSA County Committee (COC) or its representative has conducted an onsite inspection of the damaged area
- the Agency responsible for technical assistance, such as the Natural Resource Conservation Service (NRCS), has made a needs determination, which may include cubic yards of earthmoving, etc., required for rehabilitation

For more information about ECP, please visit www.fsa.usda.gov.

USDA Issues Safety-Net Payments to Farmers in Response to 2015 Market Downturn

The U.S. Department of Agriculture (USDA) announced that beginning today, many of the 1.7 million farms that enrolled in either the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs will receive safety-net payments due to market downturns during the 2015 crop year.

This fall, USDA will be making more than \$7 billion in payments under the ARC-County and PLC programs to assist participating producers, which will account for over 10 percent of USDA's projected 2016 net farm income. These payments will help provide reassurance to America's farm families, who are standing strong against low commodity prices compounded by unfavorable growing conditions in many parts of the country.

Unlike the old direct payment program, which issued payments during both weak and strong market conditions, the 2014 Farm Bill authorized the ARC-PLC safety net to trigger and provide financial assistance only when decreases in revenues or crop prices, respectively, occur. The ARC and PLC programs primarily allow producers to continue to produce for the market by making payments on a percentage of historical base production, limiting the impact on production decisions.

Nationwide, producers enrolled 96 percent of soybean base acres, 91 percent of corn base acres and 66 percent of wheat base acres in the ARC-County coverage option. Producers enrolled 99 percent of long grain rice and peanut base acres and 94 percent of medium grain rice base acres in

the PLC option. Overall, 76 percent of participating farm base acres are enrolled in ARC-County, 23 percent in PLC and one percent in ARC-Individual. For other program information including frequently asked questions, visit www.fsa.usda.gov/arc-plc.

Payments are made to producers who enrolled base acres of barley, corn, grain sorghum, lentils, oats, peanuts, dry peas, soybeans, wheat and canola. In the upcoming months, payments will be announced after marketing year average prices are published by USDA's National Agricultural Statistics Service for the remaining covered commodities. These include long and medium grain rice (except for temperate Japonica rice), which will be announced in November, remaining oilseeds and chickpeas, which will be announced in December, and temperate Japonica rice, which will be announced in early February 2017. Upland cotton is no longer a covered commodity.

The Budget Control Act of 2011, passed by Congress, requires USDA to reduce 2015 ARC and PLC payments by 6.8 percent. For more information, producers are encouraged to visit their local Farm Service Agency (FSA) office. To find a local FSA office, visit <http://offices.usda.gov>.

USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit www.fsa.usda.gov/microloans.

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit www.fsa.usda.gov/farmloans.

Report Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2016, eligible losses must occur on or after Jan. 1, 2016, and no later than 60 calendar days from the ending date of the applicable adverse weather event or attack. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred.

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 3%. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2016 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by January 30, 2017
- An application for payment by March 30, 2017.

Additional Information about LIP is available at your local FSA office or online at: www.fsa.usda.gov.

MAL and LDP Policy Changes for Crop Years 2015-2018

The Agricultural Act of 2014 authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs), with a few minor policy changes.

Among the changes, farm-stored MAL collateral transferred to warehouse storage will retain the original loan rate, be allowed to transfer only the outstanding farm-stored quantity with no additional quantity allowed and will no longer require producers to have a paid for measurement service when moving or commingling loan collateral.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2016 MALs and LDPs for all eligible commodities after harvest.

Before MAL repayments with a market loan gain or LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to the actively engaged in farming

cash-rent tenant, Adjusted Gross Income provisions or the payment limitation.

To be considered eligible for an LDP, producers must have form [CCC-633EZ](#), Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements or redemptions using commodity certificate exchange.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP. Producers must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website www.fsa.usda.gov.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

USDA Extends Margin Protection Program for Dairy Enrollment Deadline

USDA announced that it will extend the deadline for dairy producers to enroll in the Margin Protection Program (MPP) for Dairy to Dec. 16, 2016, from the previous deadline of Sept. 30. This voluntary dairy safety net program, established by the 2014 Farm Bill, provides financial assistance to participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the producer. A USDA web tool, available at www.fsa.usda.gov/mpptool, allows dairy producers to calculate levels of coverage available from MPP based on price projections.

Selected Interest Rates for October 2016

90-Day Treasury Bill - .250

Farm Operating Loans — Direct -2.125

Farm Ownership Loans — Direct -3.125

Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher - 1.50

Emergency Loans - 3.125

Farm Storage Facility Loans - (7 years) 1.50

Sugar Storage Facility Loans - 1.75

Commodity Loans 1996-Present - 1.625

USDA is an equal opportunity provider, employer and lender.
